PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student at GIFT Autonomous, Bhubaneswar, with hands-on experience in Java, Python, Artificial Intelligence and Machine Learning, SQL, and Web Development. Developed academic projects including a Library Management System, AQI Prediction system, and Event Registration Portal. Completed internships in Java and AI/ML, gaining practical exposure to software development, machine learning concepts, and problem solving. Seeking internship or entry-level opportunities to apply technical skills and contribute to software and AI-driven projects.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++

Web Technologies: HTML5, CSS3, JavaScript

Database: SQL

AI/ML: Artificial Intelligence, Machine Learning, Data Analysis

Tools & Platforms: Git, GitHub, VS Code

Core Skills: Object-Oriented Programming, Problem Solving, Data Structures and Algorithms

PROJECTS

Library Management System | Java

- Developed a Java-based system to manage library operations including book records, member information, issue and return processes.
- Applied Object-Oriented Programming concepts to organize application functionality and improve maintainability.
- Implemented database-oriented operations for managing and retrieving library information.

AQI Prediction System | Python, AI/ML, HTML

- Developed an AI/ML-based system to analyze air quality data and predict Air Quality Index (AQI).
- Applied data preprocessing and machine learning concepts to generate AQI predictions.
- Created an HTML-based interface for presenting prediction results.

Event Registration Portal | HTML, CSS, JavaScript

- Developed a responsive web-based portal for event registration and participant information management.
- Used HTML and CSS to create the user interface and JavaScript to implement interactive functionality.
- Designed a simple and user-friendly registration workflow for event participants.

INTERNSHIP EXPERIENCE

Java Intern | Pythonsoft LLP, Khandagiri, Bhubaneswar

- Gained practical experience in Java programming and Object-Oriented Programming.
- Worked with Java programming concepts and software development practices.
- Strengthened problem-solving and application development skills through practical tasks.

AI/ML Intern | Pythonsoft LLP, Khandagiri, Bhubaneswar

- Gained hands-on exposure to Artificial Intelligence and Machine Learning concepts.
- Worked with data analysis and machine learning workflows.
- Developed understanding of applying AI/ML techniques to practical prediction problems.

EDUCATION

GIFT Autonomous, Bhubaneswar

Bachelor of Technology (B.Tech) in Computer Science and Engineering | Expected 2028

CGPA: 7.5/10

ADDITIONAL INFORMATION

Areas of Interest: Software Development, Artificial Intelligence & Machine Learning, Web Development

Languages: English, Hindi, Odia
